HOW DOES IT WORK?

The Do Good Coin was built to harness the current crypto environment to create a sustainable economy for consistent donations to charities. You can invest in an asset that as it appreciates,

YOU WIN & CHARITIES WIN

your investment in Do Good subsequently creates further resources for charities.

.....

This is done by adhering to a strict circulation schedule, in **which 50% of the total supply** is released into circulation initially through giveaways, pre-sales, and in exchange for services rendered, and the **remaining 50% is earmarked for charities**.

.....

Once the fully diluted market cap reaches \$10,000,000, the circulation schedule and subsequent donations to charities will begin. **The general principle is that 1% of the remaining amount of coins not in circulation will be released into circulation each month.**

**THIS CREATES AN ONGOING
SUSTAINABLE MODEL WHICH
LASTS IN PERPETUITY.**

A large, light gray graphic of interlocking gears is positioned in the bottom right corner of the page.
